## Jews Not Zionists

Over the past few months, the ADC has received numerous complaints regarding graffiti including the words 'Jews Not Zionists' with a swastika drawn next to or on top of the Star of David. This offensive material has appeared in a number of locations including East St Kilda, Caulfield, Elsternwick, Mont Albert, Mount Waverley and Camberwell.

In some cases, this material has referred to the jewsnotzionists.org website. This website argues that there are many Jewish movements and organisations that believe that any form of Zionism is heresy, and Israel's existence as a secular state is illegitimate.

The homepage concludes: "It is our hope that the information presented on this site will be of benefit to all and that we soon merit the peaceful dismantlement of the so-called "State of Israel" and that Jewish-Muslim brotherhood be restored as prior to the arrival of the Zionist scheme on the global scene".

## The Adelaide Institute And Peter Myers

Peter Myers is an ACT based writer obsessed with a perceived link between Jews, Zionism and world government.

In material electronically published by the Adelaide Institute (5 July 2004), Myers claim that only Israel benefited from the 9/11 attacks carried out by Mossad, perhaps using Arabs who did not know the overall plan. Why did Israel do this? In order to fulfill Biblical prophecies, and to rebuild the Third Temple where the Dome of the Rock now stands. "These goals require war with Islam - why not get the U.S. to do it for them, using the oil issue as a smokescreen to hide the religious motive?"

Myers also states that if Michael Moore's Fahrenheit 9/11 had dealt with Israeli-connected issues, it would never have been shown. At the same time, the absence of any reference to Israel or Jews in Fahrenheit 9-11 shows the power of the Jewish lobby.

Myers also claims that the Hexateuch (the 5 Books of Moses and the Book of Joshua) could not be G-d's word because it exalts and justifies genocide, rape, robbery and other crimes against 99% of God's own creation.

According to Myers, "The Hexateuch is a racist and exterminationist political ideology. It is much worse and more devious than Hitler's Mein Kampf."

## The Murder of Nick Berg

The July-August edition of *New Dawn*, a magazine featuring bizarre conspiracy theories, includes an article on the death of kidnapped Jewish American Nick Berg in Iraq.

It argues that the U.S. military may have killed Berg in a staged psychological operation to distract attention from the Abu Ghraib torture scandal, an execution arranged by 'CIArabs'. Another possibility is that the identity of Nick Berg's killers may never be revealed. However the evidence points to the possibility that Berg got entangled in a secret U.S. military mind control program and he was sacrificed for war propaganda purposes. The article also 'reveals' that Berg arrived in Baghdad with anti-Zionist leaflets and a copy of the Quran.

*Hard Evidence* is another conspiracy-driven publication and its most recent edition also features an article on Nick Berg ("The Death of Nick Berg, a Muslim Perspective" by Professor Sam Hamod, Former Director of the Islamic Centre of Washington, DC and Editor of Third World News).

Hamod argues that Nick Berg's murder may have been committed by Israeli agents who been operating in Iraq since the American invasion, and have been advisers and combatants for the U.S. military, especially in interrogation techniques. "I do not know if it was Israelis, but I do remember in the 1980s, when the Mossad of Israel shot Israel's own ambassador to London to help justify the Israeli invasion of Lebanon," stated Hamod.

## The Real Axis Of Evil

The current edition of *Hard Evidence* includes an article entitled 'The Real Axis of Evil Monsters in Our Midst: The US, Britain, and Israel' by prolific conspiracy theorist John Kaminski.

Kaminski accuses America, Britain and Israel of trying to "co-opt and prostitute" all the nations of the world.

He accuses Britain of being the 'architect', the U.S. the 'triggerman', and Israel the 'tumour' that facilitates the spread of this evil.

"It is wrong to blame Jews for inventing this kind of behaviour, because they have only copied it from other tyrannies of history. But with the sanction of their holy books, particularly the notorious Sanhedrin which approves of their lying and sanctifies the robbery and killing of non-Jews with no penalty, we can all be sure that this conscienceless behaviour will not be corrected as long as Judaism exists".

## Australian Government Weak

The far-right Australian online forum *The News Report* (21/7/04) included (former One Nation Party parliamentary candidate) Maurice Horsburgh's letter to New Zealand Prime Minister Helen Clark.

In commending her on the action taken against two suspected Mossad agents, for their 'gross violation' of New Zealand's sovereignty, Horsburgh states that for too long the Israeli government has shown an almost total disregard for the United Nations, International Courts and respect for others' borders.

"The action of your government is in stark contrast to that of the Australian government who, at the highest level, ordered that the files on Mossad's activities here be destroyed. There is also a tacit agreement between major political parties that there shall be no criticism of Israel in Parliament".

## Graeme Campbell Seeks Re-Election

Graeme Campbell will seek re-election in his old seat of Kalgoorlie at any forthcoming federal election. A former Labor MP turned Independent, Campbell contested the 2001 election as One Nation's Senate candidate in the west. He has had previous connections with the extremist Australian League of Rights.

Campbell founded the Australia First Party, whose website describes itself as concerned about issues of immigration, multiculturalism, and Asianisation. He believes that Australia accepts too many Asian migrants, threatening Australian values and traditions.

He has said that Australia's immigration policies are racist because 72% of migrants come from Asia. Campbell rejected any suggestion that his ideas were racist, claiming that many ethnic people supported him. "Racism is a term of abuse that is being used to stifle debate," he said. "We should have more balance... [by] more migrants from Anglo-Celtic and European backgrounds". (*The Sunday Times* 18 July 2004)

## Fabian Socialists Bullies

Diane Teasdale has been National President of the Australia First Party since 2001. Earlier this year, she wrote to the Shepparton News stating that Australians are placid until threatened. "This is why it is so important to those who believe in World Government and Fabian Socialists and their ilk that anyone who presents a view that may alert the people must be bullied into silence."

Commenting more recently on the Victorian government's proposed Multicultural Victoria Act, Teasdale stated that most Australians, when given the opportunity to comment, would want a reduction in the immigration numbers. "They certainly feel uneasy when multiculturalists appear to be establishing more legislation that is certainly not designed to teach immigrants respect for our Australian culture," she said. (Shepparton News, 12 July 2004)

## Is Keysar Trad Green And Left?

Two recent articles in *Green Left Weekly* reported on alleged mistreatment of Muslims.

Commenting on a rally outside the Israeli embassy in May, Nick Everett described how Keysar Trad, from the Lebanese Muslim Association (and a close adviser to the Mufti Sheikh Hilaly) told the crowd that media censorship is part of the injustice towards Palestinians. He claimed that if other Australians knew what was really going on in Palestine, they would be attending the rally. He also talked about the hypocrisy of locking up Muslim Australians and accusing them of terrorism when some fifty Jewish Australians have enlisted in the Israeli armed forces to kill innocent people in Jenin and elsewhere on the West Bank.

The 7 July 2004 edition of *Green Left Weekly* featured an article "Guilty of being Muslim" by Sarah Stephen, describing the hostility to Muslims allegedly running deep among sections of Australian society.

Asked whom he thought stood to benefit from the 'lie' that there is a link between Muslims and terrorism, Keysar Trad said: "The lies are supported by vested interests that stand to profit from these lies. For example, the weapons manufacturers can only thrive when the lands they wish to colonise are inhabited by the 'other'. In this case these lands are rich with oil that can rescue the economies of the West, so funds were invested to ensure that these ideas are promoted".

## Irving David?

The July edition of *The New Times Survey*, a publication of the Australian League of Rights, claims that Holocaust denier David Irving has happily confirmed his Jewish roots.

“Holocaust promoters can have no interest in advertising that the “main exponent” of Holocaust Denial is a Jew. Oy vey, what a publicity disaster that would be! At the end of the day, one can argue that it doesn’t matter what heritage Irving’s mother had, at least not in regard to where the historical truth is to be found. But for many individuals, it might make a difference in their personal attitude toward revisionism.”

*The New Times Survey* took this quotation from an article entitled ‘A Footnote of Irony’ whose author Germar Rudolf is best known for his *Rudolf Report*, which supports the views of fellow denier Fred Leuchter on the Auschwitz gas chambers. The unedited Rudolf article also appears on the website of the Adelaide Institute..

## Citizens Electoral Council exposes Cheney?

The Melbourne based *Citizens Electoral Council* (CEC) promotes the economic policies and conspiracy theories of American extremist and cult leader Lyndon LaRouche. Members of the CEC Australian LaRouche Youth Movement are currently distributing the third in a series of “Beast-Man” reports ‘exposing’ the U.S. and British pro-imperialist forces behind the ‘crimes’ of U.S. Vice President Dick Cheney.

*Children of Satan III: The Sexual Congress for Cultural Fascism* purports to expose a campaign of fascist-like culture warfare against the classical traditions of the United States and other nations. “Nazi precedents have been copied, wittingly, by agents of the Cheney-Bush Administration for the Hitler-like crimes which that administration has authorised and perpetuated in prison camps in Guantamo, Afghanistan and Iraq.” LaRouche wrote on his website in June.
